DETAILED ACTION

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

Rao discloses a method for processing data types in a video stream. This method comprises "calculating correlation values for each pseudo frame", "determining scene changes" (Rao: column 25, lines 65-67, wherein the correlation value is the field activity), and "analyzing correlation values and scene changes to identify the source of each frame" (Note Rao, figure 4B. Processor 490 and 480 use both correlations from 401 and scene change from register 470). However, this method lacks the forming of pseudo frames from fields in adjacent frames as claimed. This method further lacks selecting two sets of correlation values, wherein the two sets of values are non-overlapping. A further search was conducted which failed to yield any prior art. Therefore, the prior art fails to teach or render obvious these limitations taken within the others in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dave Czekaj whose telephone number is (703) 305-3418. The examiner can normally be reached on Monday - Friday 9 hours.
